

TabLock Baking Screens

American Pan TabLock Baking Screens are constructed using a tab-lock attachment system* for easy and economical replacement of baking screens. The high-strength steel frame also features an interlocking rib design that allows pans to stack while protecting the baking screen.

Simplified Screen Replacement

Baking screen is attached to the frame using a TabLock design to allow for easy and economical replacement of baking screens.

Easy-to-Use Tools Included

Exclusive installation and removal tools designed for fast and simple replacement of baking screens...most screens can be changed in less than two minutes.

Maintenance Free

No rivets, no drills, no metal shavings, and no need to ship to a service center for replacement.

Effortless Integration

Compatible with all industrial baking systems and suitable for heavy duty industrial applications.

Safe for In-Line Washing

TabLock's sealed frame design provides a safe, sanitary option for operations that use in-line pan washers.

*E.U. Patent No. EP2708129

BUNDY BAKING SOLUTIONS:

-  **Baking Pans**
-  **Pan Coatings**
-  **Release Agents & Applicators**
-  **Refurbishment Services**

Optional Features

American Pan baking screens are constructed of commercial-grade materials, fabricated in various sizes and configurations to meet your baking needs, and coated to your specifications. Additional options include:

- Baking panel available solid or in any perforation pattern or size
- Available as flat, screen, or with moulds (fluted), flat or rounded bottoms
- Coated with our proprietary silicone- or fluoropolymer-based coatings
- Stainless steel, aluminium, or aluminized steel frames and screens
- Interlocking rib design allows pans to stack and also protects the baking screen to increase pan life

Global Innovation + Local Expertise

American Pan is the world's leading provider of custom and standard size baking pans, pan coatings, and pan refurbishment services. We proudly maintain a strong presence and dedicated manufacturing and service facilities in Brazil, Canada, Colombia, Germany, Mexico, Romania, Spain, Sweden, Türkiye, UK, and the United States. Our global reach combined with local expertise allows us to deliver innovative solutions for your bakery's biggest challenges.
